DREAD SEASICKNESS

Congressman Gillett Butt for Members Jokes.

NEW YORK NATIONAL PARK

Movement on Foot to Set Aside Historic Ground—Telephone Companies Experimenting with Glass Poles—Noted Scientist Goes to University.

NEW YORK, November 30.—Congressman Gillett, of Massachusetts will be made the butt for much joking by his colleagues when he returns from his trip to the Isthmus. The New Englander has had a hard time keeping up with the members of his committee, for he dreads seasickness. Instead of sailing from New York with the committee, he traveled out to sea on the remarkable railroad being extended along the Florida keys. The road, which is the Florida East Coast line, has not quite completed its trackage as far as Key West, but Congressman Gillett was enabled to travel as far as Knight's Key. Whatever opportunity the New England man might have had for getting on the committee on Naval Affairs has been dissipated.

Another government scientist has been captured by the George Washington University, thus bringing the institution that is rapidly becoming the great graduate school of the country, into closer relationship with the government. This close relationship insures the cooperation of government officials and opens to the students of the University a great field for scientific research and investigation, to be found in the faculty is Dr. Perley G. Nutting of the bureau of standards, who has been appointed assistant professor of physics. Since 1903 Dr. Nutting has been assistant physicist at the Bureau of Standards and is considered an authority on optics and spectroscopy.

Some of the government authorities, including those of the Forestry Bureau and the War Department, are much interested in the movement that has just been started in New York for the creation of a national park, or rather a national preserve, in the Highlands of the Hudson. The land which it is proposed to set aside entirely surrounds the U. S. Military Academy at West Point and it is suggested as one of the recommendations of the project that its adoption would greatly extend the area available for the military practice work of the cadets. Both scenic and historic grounds are urged for the adoption of the park proposal. It is pointed out that it would result in preventing any possible defacement of one of the finest stretches of river scenery in the world and in preserving under national auspices the scenes of some of the dramatic incidents of the Revolution. Dr. E. L. Partridge of New York, who suggested and is urging the plan, believes that it would not be necessary for the government to buy all the land which it is proposed to include in the park. He feels that all that is necessary can be accomplished by securing certain easements from the present property holders and by placing the region under the control of the Forestry Bureau to prevent wholesale destruction of its timber. Dr. Partridge outlines his plan, which is still in the initial stages, in the current number of the Outlook. (Continued on page 2)

CHAMBERLAIN AND HIS HOLIDAYS

They are legal to buy property on. If you are tired or worried looking at your certificate of deposits, have checks, drafts or clearing-house certificates, you want to exchange, bring them to 430 Commercial street, and you can have improved city property with an income monthly rental that will be profitable as an investment or safe as a loan. Property in any part of city desired. Respectfully announced

O. F. MORTON. 430 COMMERCIAL.
